

Subject: Application for Software Engineer– Shabiha Mannan Era

Dear Hiring Team,

I am writing to express my strong interest in the Software Engineer position at Ternary. As a motivated developer with a solid foundation in web technologies and modern software development, I am eager to contribute to your engineering team.

During my academic journey and hands-on practice, I have built full-stack applications using React, JavaScript/TypeScript, and ASP.NET Core. I have experience building RESTful APIs, integrating SQL Server databases, and writing clean, scalable code. Furthermore, I am comfortable with version control tools like Git and modern UI frameworks.

I am particularly drawn to Ternary because of your innovative work in software solutions. I am a quick learner, proactive in problem-solving, and ready to adapt to your development workflow and technical stack.

Thank you for considering my application. I would welcome the opportunity to discuss how my technical skills and enthusiasm can add value to your team.

Sincerely,

Shabiha Mannan Era
